REPORT OF LIBRARY TRUSTEES

We are pleased to report an increase in the circulation of books for the past year.

The Christian Science Society gave three books. Mrs. Martha Higgins of Manchester gave a large number of fiction and non-fiction books to the library, shortly before her death.

We wish to thank all who have so kindly donated books.

This year the books and furniture was insured for the first time since the fire of 1907.

We wish to complete the file of town reports, and would be grateful to anyone contributing back numbers of these reports.

We wish to thank all who have been of service and who have taken an interest in this library.

Six new shelves have been purchased to make room for the books, but very soon a new book stack will be necessary.

REPORT OF SCHOOL BOARD

To the Inhabitants of the School District of Dunbarton:

Your School Board submits its annual report for the year beginning July 1, 1929, to the present time.

June twentieth the citizens in the No. 1 District at South Dunbarton met at the Center with the School Board and Superintendent and formed a Parent-Teacher Association. They planned to hold their meetings at the school house in that district. The following officers were chosen: Mr. Alfred Grant, president; Mr. Fred Paris, vice-president; Mrs. Cora Merrill, secretary. We are pleased that they are taking so much interest in their school.

The teaching of religious education by Mr. and Mrs. Hunt to the children in the Center School is to be commended. Each Friday courses are given to the different classes.

During the summer Mr. Pringle with Mr. Bushnell visited the schoolhouses. Mr. Pringle suggested some repair work that he thought necessary to be made.

You will see by the Superintendent's report the repair work that has been made the past year.

Respectfully submitted,

WESTON P. LORD,
EVA A. TUCKER,
MARY C. BARNARD,

School Board.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Dunbarton:

This is my third annual report. It deals in brief with the following topics:

- (1) Statistics of our schools.
- (2) Changes in school population and school calendar.
- (3) Our school buildings.
- (4) Community co-operation.
- (5) A revised Program of Studies for elementary schools.
- (6) Recommendations for the coming year.

STATISTICAL REPORT FOR THE YEAR ENDING JUNE 30, 1930

SCHOOLS	Number half-days school in session	Average membership (number of pupils)	Percent of attend- ance	Number half-days absence per pupil	Number tardinesses per pupil	Number visits by superintendent	Number visits by school nurse	Number visits by citizens
Centre	348	20.3	92.0	27.8	5.1	23	10	15
Burnham Hill	352	7.4	97.7	8.2	0.7	11	9	39
S. Dunbarton	350	7.7	96.9	10.8	2.1	13	4	1
Montalona ..	354	20.7	93.4	23.4	1.0	16	6	20
Waite	350	13.2	97.4	8.8	2.4	11	8	57
Dunbarton .. (All schools)	350.8	69.3	94.6	18.9	2.5	74	37	132
State of N. H.	355.7	...	95.5	..	0.99

Comparison of the preceding table of statistics with last year's report will show that while the state average of attendance is on the increase, Dunbarton's average dropped almost one per cent since the year before. The three smaller schools—Burnham Hill, South Dunbarton and Waite—still showed an average for 1929-1930 that is better than that of the state as a whole.

In the matter of tardiness, Burnham Hill had the best record. Our town has no cause to be proud of the fact that we have two and one-half times as many tardinesses as the average for the entire state. Parents can be very helpful by co-operating to decrease the number of tardinesses in our schools, and helping to develop in our children the desirable habit of being on time.

CHANGES IN SCHOOL POPULATION AND SCHOOL CALENDAR

The Burnham Hill School is closed this year because there are too few pupils in that neighborhood to warrant the maintenance of a school. The children are transported from that district to the Centre School.

By vote of the school board, the recommendation made last year for a longer school year was adopted. The present school year will consist of 180 school days. A visiting day for a teacher, or a day spent at a teacher's institute, are counted by a teacher as a school day; other holidays are not so counted.

OUR SCHOOL BUILDINGS

During the past summer, the Centre School building has been thoroughly remodeled. The old chimney being defective, a new one was built. Additional windows were put in on the left of the pupils, and a portable blackboard built in such a way as to shut off the direct light from the right of the room. No windows, however, were removed. A new ventilating heater, which works on a principle similar to a one-pipe furnace or "Heatrola," has replaced the worn-out stove. A steel

ceiling, painted white, and buff-colored walls, help make the room light. Separate entrances to boys' and girls' toilet rooms have been built. New shingles on the roof completed the job.

COMMUNITY CO-OPERATION

The people of Dunbarton, both individually and through their organizations, have always shown a commendable spirit of willingness to co-operate with school teachers and authorities. The Dunbarton Community Club shows a great deal of interest in the work of the schools, and deserves especial thanks for its annual award of one dollar to the pupil who shows the greatest improvement in each one of our schools. In the South Dunbarton district, a Parent-Teacher Association has recently been formed, which in many helpful ways is showing itself to be a live organization.

A REVISED STATE PROGRAM OF STUDIES

During the past summer a new edition of the "Program of Studies for the Elementary Schools" was issued by the State Board of Education. This volume of nearly 500 pages is the work of committees of teachers and superintendents, who have worked diligently for more than a year to complete this important task. The principal changes made by the program are as follows:

a. *More emphasis on reading.* The 1921 program of studies stated that most children have become independent readers by the end of grade III, and gave little or no emphasis to formal instruction in reading beyond that point. It is now recognized that further instruction for most pupils is necessary. Training in silent reading as well as oral reading is emphasized.

b. *Less arithmetic for the first two grades.* Certain processes with numbers that seem very difficult for young children are mastered with comparative ease by pupils who are a little older, and whose minds have developed to a point where they can understand such problems. It seems good judgment to

postpone the more formal number work until the minds of the pupils are mature enough to grasp it successfully.

c. *More American history, and less European.* There was a time when stories of American history were taught in almost every grade, and this plan resulted in much tiresome repetition. In order to avoid this, the 1921 program assigned to Grades 5 and 6 stories of Hebrew, Greek, Roman and English history. While there is much valuable material in this field, experience has shown that two years of work upon it was too much time, and that one year is probably sufficient. In the new program, the fifth grade is given stories of our own country. The sixth grade studies the European background of American history, and this serves as a basis for a more thorough understanding of our country's development as studied in the seventh and eighth grades.

d. *More definite standards or goals in each subject.* Throughout our new program, there are helpful suggestions for teaching different subjects effectively. There are also many specific statements as to the degree of mastery expected in each grade. Both of these features should be of help to teachers in securing a higher quality of work on the part of their pupils.

e. *Particular reference to the needs of the rural teacher.* Teaching a rural school has a technique all its own. A teacher who can do a splendid job of teaching in a city school may find herself quite at a loss in a one-room school with six or more grades. It is encouraging to find this fact recognized by the authors of our new program of studies, and to find many helpful suggestions advanced for the use of the teacher in a rural school.

RECOMMENDATIONS FOR THE COMING YEAR

1. *Visit school one or more times each year.* All parents are urged to call at the school which their children are attending, for at least half an hour at some time during the year. We are always glad to welcome parents and neighbors

at our schools. Their visits help in many ways, especially by developing a better understanding between parents and teachers.

2. *Improved attendance and less tardiness.* It is manifestly a waste of money to pay a teacher to teach children, if the children are not there to learn. No excuse other than ill health should keep a child from school a single day. Furthermore, the habit of being late, which many of us adults have formed, ought not to be encouraged in our children. Parents, by taking care, can prevent much of the absence and tardiness which mar our records each year.

3. *Continued improvement of school buildings.* For three years now, the district has followed the commendable practice of doing its repair work in a thorough and permanent fashion, concentrating on certain schools that seemed most in need of improvement. This method of working should be continued. This summer there seems to be no buildings in need of as expensive a job of reconstruction as the Burnham Hill and Centre buildings have required. Separate entrances to the toilets at South Dunbarton should be provided, and this can be done at small cost. New seats, and certain minor improvements, are desirable for the Waite school.

CONCLUSION

Grateful acknowledgment is here made of the cordial co-operation of school board members, teachers and other citizens of Dunbarton. Let us continue to practice the motto, "Work together for the good of the children."

Respectfully submitted,

ALMON W. BUSHNELL,

Superintendent of Schools.
